Is all knowledge re Plexiglas by R+H A.G. communicated to R+H Co? Ans. No, because R+H Co. never did some of the work on some of its uses such as Windscreens (A.G.) & Fabrication (Pilots) & had much work done by R+H A.G.

(p 37 History work)

Get history of R+H Co during World War - what happened to its staff, patents, etc, what followed, & how it kept control

Re: Harbo statement -

p 1. While R+H claims not have met all military requirements, unquestionably Plexiglas & similar products have other uses esp. for substitutes, which apparently they cannot supply

p 2. Complete history of R+H Co not given.

Petton should have up on p when. Wright Field made R+H A.G. Dr. Petton a director, dress- Dr. Petton told me children in the country.

Dr. Pitton did the basic work in this field & published it in 1901

Dr 9 of Dr. R's patents were confiscated during the world war.

Statement on Rep Pursell + Chem. Co. Not available. There have been 2 German companies + a 30% German ownership. The

Germans (Chem. Fabriken A. Kunstalbuterg.) participated in the organization of Rexfed.

p. 8 Notwithstanding this deal, RCA has sold to Mex Govt, particularly Latin America. In fact, they have sent agents there

p. 9 Relationship with Ig Farb that RCA has much to "clean up" before Ig can.

p. 13 This deal not registered with Dept of Justice until 1940 as Post Office until

p. 16 Part of this arrangement:

Rexfed business for Germany,
Agents use British Purchasing,
Germans use
RCA use Ag. Subsidiary, RCA Ltd.

p. 17 4 Argentine for some years.

general:

1) How much money has gone to Germany under these arrangements from I.G.?
2) How much has come to I.G. from Germany?
3) What information has been transmitted to Germany & German materials & German representatives?
4) Do these any special knowledge in production of Perutz in U.S. that Germany don't have?
5) What is the total value of the American "loot" through cancelling Standard, etc. - not this is very small, & could very well not been a "loss" for just such an eventuality. But I'd like to read this matter over & think it.
6) Do it not fact that every potent relationship with I.G. any time 1932 & 1933 has been affirmed by the Nazi Government? No doubt to

7) When, recently, did [redacted] Hoge or other representatives of R&H go to Germany, & for what purposes? etc.

8) Did R&H & export agree as to fields into which they could go for the use of their similar products?

9) Are Lucite & Plexiglas actually identically the same (or strong they are similar)

10) What has been the recent relations of R&H & with German interests through neutral countries? related companies

11) When was the last direct communication between the R&H Co & German interests?

12) Have R&H Co. developments been made [redacted] available freely, to American company without approval a agreement R&H Co & other German interests?

13) Can any of RAH 49 patents, even
if the Ger. pat. rights were seized by the U.S.
now subject to seizure by the U.S.
Govt. or other enemy property?
14) What would have happened to
RAH Co if it had not lived up to
its agreements with German Com-
panies? (RAH's thesis they would
have lost their licenses)
15) Could RAH be a profitable
client without German patents?
16

often would war corporate property found its way back into German hands, not only with Ford, but Standard, Whitney etc. Suggest committee Trace what happened to such Gov. property after World War II & how war secret effort at loot & in this investigation & in this war, was an effort to discover, through the years, German control over these factors has seriously affected our military efficiency (because at least) Even the case of Ford & phony Flue.

(1) Re mil. availability of Rangers &
How much better would our
Substitute material be
if we had use of A.F. equipment?
